TERRIBLE BATTLE WITH STRIKERS

Non-Union Men and Sheriffs Are
Beaten Seriously by In-
furiated Mob.

MORE THAN 1000 SHOTS FIRED

Coal Miners Grow More Demon-
strative and Attack Posse—
Workmen's Train
Surrounded.

SHENANDOAH, Pa., July 30.—In the street fighting tonight between a mob of striking miners on one side and deputy sheriffs and police on the other, Joseph Beddall, a leading merchant, was beaten to death, two Borough policemen were shot, one fatally, and more than a score of strikers were shot by the policemen and the deputy sheriffs.

Sheriff Beddall arrived at 7:15 p. m. from Pottsville, with a posse of deputy sheriffs. The trouble started about 6 o'clock tonight, when Deputy Sheriff Tom Beddall attempted to escort two non-union workers, through the strikers' line of pickets. The workmen were dressed in their street clothes, but one of them carried a bundle under his arm and this aroused the suspicions of the strikers. The bundle was torn from him and when it was found to contain a blouse and overalls the man was taken from the deputy and beaten almost to death.

In the meantime Beddall opened fire on the mob which had gathered and emptied his revolver. Two of the shots took effect, one man being shot in the leg and the other in the foot. The deputy and the other strike-breaker were now compelled to fly for their lives, and took refuge in the Philadelphia & Reading railroad station. The station was soon surrounded by an angry mob of 5000, which was becoming more threatening and demonstrative every moment. Joseph Beddall, a hardware merchant and a brother of the deputy sheriff, was seen making his way through the crowd in an effort to reach his brother, and the mob, divining that he was carrying some ammunition to those inside the station, struck and beat him with clubs and bullets into insensibility. He died en route to the miners' hospital.

Shortly after this, the entire Borough police force arrived on the scene and escorted the deputy sheriff and his man to the engine which had been backed into the station. When the mob realized that their prey was about to escape they surrounded the engine and the engineer was afraid to move. In a few moments, however, the police fired a volley, dispersing the crowd for a brief period, and the engineer turned full steam on and got away. Stones were thrown thick and fast about the heads of the police, whereupon Chief Frye gave the order to fire. At the first volley the mob fell back and several were seen to fall. The retreat, however, was only momentary. They turned and, with revolvers, stones and even a few shotguns, charged on the little band of policemen and made them fly for their lives. Then the policemen turned in their flight at short intervals and fired volley after volley at their merciless pursuers, but the mob seemed thoroughly infuriated and revolvers seemed to have no terrors for them. When the Lehigh railroad crossing was reached, a passing freight train blocked the progress of the police, two of whom were caught and brutally beaten. One of them, Stacey "Acopsky," will die. It is estimated that more than 1000 shots were fired. More than 30 strikers, all of whom were foreigners, were shot, and at least two of them will die.

TROOPS ORDERED OUT.

HARRISBURG, Pa., July 30.—At 1:45 p. m. the Eighth and Twelfth regiments and governor's troops were ordered to Shenandoah.

U. S. CONSUL PRAISES ARGENTINE REPUBLIC

Consul Mayer Says That the Republic Is Not Excelled and Is Constantly Improving.

NEW YORK, July 30.—Dr. D. Mayer, United States consul at Buenos Ayres, Argentine Republic, who is in this city, declares Argentina is the best republic in South America.

"Trade with the United States from my district," said he, "is increasing daily. Five years ago the United States ranked fifth in exporting and

importing; today it ranks second, having outdone Germany, France, Belgium and Italy. There is nothing that you can buy in New York that you can't buy in Buenos Ayres. The only difference is in the price, Buenos Ayres being one of the most expensive cities in the world to live in. This is due to the fact that Argentina is not a manufacturing country, and everything outside of native products is imported. The main industry of the republic is raising cattle, sheep and wheat. All these are so plentiful that a good deal is exported to other countries.

"In order to increase the trade between the United States and Argentina, we must have a direct steamship service connection between New York and Buenos Ayres. In fact the Argentine government is ready to meet us half way by paying a subsidy of from 20,000 to 30,000 dollars a year to such an enterprise. The Argentine people themselves prefer American goods to all others on account of superior workmanship and finish. For instance, 75 per cent of all the machinery for farming and other industries comes from American manufacturers.

"Dry goods, for the most part, are imported from France, England and Italy. There is no reason why we should not have that trade.

"The people of the Argentine Republic are very progressive and are kindly disposed towards Americans and American-made goods.

IOWA REPUBLICANS NOMINATE.

Want Tariffs Revised if They Are Fostering Trusts.

DES MOINES, Ia., July 30.—The Republican state convention today nominated the following ticket:

Secretary of state—W. B. Martin, of Adair county.

Auditor—B. F. Carroll, of Davis county.

Treasurer—G. S. Gilbertson, of Winnebago county.

Attorney-general—C. W. Mullin, of Black Hawk county.

Judge of supreme court—Scott M. Ladd, of Bryan county.

Judge of supreme court, short term—Chas. A. Bishop, Polk county.

Clerk of the supreme court—John C. Crockett, of Hardin county.

Supreme court reporter—W. W. Cornwell, of Clay county.

Only controversy was over the tariff and the trust utterances of the platform and that was settled in committee on resolution in favor of reiteration of last year's utterances with addition to the trust plank, congratulating President Roosevelt for the inauguration of judicial proceedings to enforce the anti-trust laws.

There was a spirited debate in the committee on resolutions of the reaffirming of that clause of last year's platform which declared for "Any modification of the tariff schedule that may be required to prevent their affording shelter to the monopoly."

ENGLISH WASHING- COMPOUND MERCHANT

It Found Not Guilty of Criminal Intent to Defraud the Government.

NEW YORK, July 30.—Hearing in the case of Ernest L. Fleming, in English manufacturer, who was arrested recently for alleged fraudulent invoicing of borax as "washing crystals" has been concluded before United States Commissioner Alexander. After various testimony had been taken and the two sides had rested without summing up, the commissioner dismissed the complaint on the spot.

Fleming testified that a test shipment of washing crystals containing a small percentage of borax had been admitted at 25 per cent ad valorem duty, under the law, on crystals. Commissioner Alexander said he could see no evidence of criminal intent and dismissed the complaint.

MINISTER COREA WILL BE SUPERSEDED

Partly Blame Him for Not Securing the Nicaragua Canal.

(Correspondence of Associated Press.) MANAGUA, Nicaragua, July 2.—It is currently reported in government circles that Luis F. Corea, the Nicaraguan minister at Washington is soon to be superseded. Senor Corea has been criticized in Nicaragua for the failure of recent efforts on the part of the Nicaragua government to negotiate a loan in New York city and another in Canada. Provocation is felt at him in a measure, for the fact that it has not been decided to build the isthmian canal through Nicaragua.

ROWDIES PELT A FUNERAL CORTEGE

Rain Missiles on the Mourners
and Employ Hose to Stop
the Procession.

STREET FIGHT THEN ENSUED

Trouble Occurred at Funeral of
Rabbi Joseph and Disturb-
ers Were Employes of
Hoe Press Factory.

NEW YORK, July 30.—The funeral of the late Chief Rabbi Jacob Joseph, the head of the Orthodox Hebrews of the United States, which was held here today, was the occasion of one of the most remarkable demonstrations ever witnessed in this city, and led to a collision between the masses of Jewish mourners and the police.

The streets were packed with thousands of Hebrews. When the procession was passing the printing press factory of R. Hoe & Co., the employes employed pails of water and threw all kinds of missiles from the window of the upper floor upon the funeral procession. The angry populace, most of whom were Jews, retaliated by throwing back into the factory windows missiles that fell on them, and in a few minutes there was scarcely a whole pane of glass in the factory. Then some one turned on the hose and played it indiscriminately all over the funeral procession. The horses trampled over the citizens and the stronger men trampled the women and children under foot. The police took a hand in the trouble and were clubbing the people right and left. It was more than half an hour before order was restored.

CHICAGO'S BEGGING CHILDREN ARE GATHERED UP.

Will Investigate the Circumstances in
Every Case Now Before the Court.

CHICAGO, July 30.—Under direction of the probation officers the police made a tour of the principal downtown retail streets last night and gathered in as many as they could of the scores of little children who are sent out into the streets nightly to beg and peddle. Forty children, boys and girls all between four and seven years of age were gathered in. Each "wailing wagon" was preceded a half block by two policemen who picked up the little ones and put them into the wagons. Many others escaped the police. The children are held at the Harrison street police annex pending an investigation in the case of each child by the Visitation and Aid Society.

The raids will be kept up until the streets are cleared of baby beggars.

PANTHER TRACY CAPTURED.

Animal Which Escaped From Bronx
Park Is Now a Captive.

NEW YORK, July 30.—The young panther which escaped on Sunday from Bronx Park and which has been dubbed "Tracy" after the Washington outlaw has been captured in Bronxville by a crowd of farmers living in the neighborhood and returned to his cage. John Stearns, who lives about one mile east of the zoological gardens, caught sight of "Tracy" near his barns. He gave the alarm and about 200 persons responded, armed with all sorts of weapons. The panther was overtaken but only two of the pursuers stood their ground. They succeeded in throwing a net over the animal and carried it back to the park.

which it is understood provided a legacy of \$50,000 for each of his grandchildren.

Mr. Perkins' condition of health was such that news of the tragedy probably would have hastened the end, so he never was informed of his grandson's plight. Mr. Perkins was 83 years old.

GREAT BRITAIN WITHDRAWS CLAIMS OF SOVEREIGNTY.

Over the Bay Islands of Ullia, and Acknowledge Them Belonging to Honduras.

NEW ORLEANS, July 30.—The steamer Condor, which has arrived here from Puerto Cortez, Honduras, brings the news that the British government has withdrawn all claim to sovereignty over the Bay Islands of Ullia, Rusan, Bonassa or Guanaja, Felsa and Barbat and acknowledged that they belong to the Republic of Honduras.

Great Britain's formal acknowledgment was carried to the islands by the cruiser Psyche, which sailed from Havana under sealed orders on July 17. The British residents at Rusan were assembled and a proclamation was read to them by the captain of the Psyche, declaring that under treaties made between Great Britain and the United States in 1850 and with Honduras in 1860, his majesty's government could no longer regard the islands as a British possession and would henceforth withdraw all exercised jurisdiction or claim to the allegiance of the natives.

The population of the islands is almost entirely British origin, coming from Jamaica, but there are some Americans from the Western states who have recently come in. English is the only language spoken.

The islands do a large fruit trade, mainly with New Orleans. The United States government is the only one having a consul in the islands.

UNCLE SAM HAS A GREAT SECRET

Invents New Explosive That Will
Pierce Fourteen Inch
Krupp Steel.

TEST HAS BEEN SUCCESSFUL

Foreign Vessels Must Double
Their Steel Wall in Order
to Stand the New
Destroyer.

NEW YORK, July 30.—A new time fuse for use on armor-piercing shells loaded with a recently discovered secret explosive of great power has been invented by the war department ordnance experts and will, according to a New York American dispatch from Washington, revolutionize foreign warship building.

Tests of the explosive and fuse have been made and so long as the United States government holds the secret, foreign battleships either must double their steel walls or be as wooden frigates with the new destroyer.

General Crozier, chief of ordnance, is quoted as having said that a test of the new explosive has been conducted with great success at Sandy Hook proving grounds, that the shell carried its contents through the thickest armor and that the fuse lived long enough to have exploded on the interior of a ship of war. The greater penetration secured was that of a shell fired from a 12-inch gun. It pierced 14-inch Krupp armor before detonation. The heaviest shield now in use is said to be only 12 inches thick.
